Marital Status: Single

Personal Statement

Results-driven Computer Science graduate with a strong foundation in Python, Django, and data analysis, passionate about building secure and user-friendly software solutions. Experienced in developing cybersecurity-focused platforms that integrate machine learning and modern security frameworks. Able to analyze data using Python libraries such as pandas to generate meaningful insights. I am eager to grow in a collaborative environment, contribute to real-world projects, and support innovation within technology-driven organizations.

Education:

Caleb University: Bachelor of Science in Computer Science (Second-Class Upper Honors)
